

My computer has a blue screen/won't turn on/shuts off periodically/other computer issues not related to the software or machine.

- All the computers are warrantied through Dell.
- Call Dell directly at 1-800-288-4410 and have the express service code that is located on the Computer ready to give them.
- They will have you run a few tests and if they deem it is a faulty computer, they will go to your facility to repair it.
